Wednesday 7<sup>th</sup> September 2016

Dear Parents / Carers,

It is with great delight and much enthusiasm that I write to welcome you to the start of a new, and hopefully exciting, academic year. My first year here was very eventful, certainly memorable and really exciting. I have stated many times that this school has something special, and my aim is to harness this in a bid to continue to improve the school, raising the achievement of all the children within it, whilst ensuring children remain happy and safe.

As always, I believe this can only be achieved through effective partnerships with parents/carers and I look forward to a close partnership continuing between home and school.

Hopefully you know by now that I am an approachable person, so please don't hesitate to come and see me at the entrance to school, where I can be found most mornings, whenever possible. It has been a pleasure to chat to many of you informally at the gate over the last year, and I hope you continue to use this opportunity to talk to me about things that are working well in school, or anything that may be on your mind.

I spoke a lot to the children previously about journeys and that, as a new Headteacher last year, we were beginning a new one together. Well, this year we continue that journey, which I hope will be an exciting one filled with many achievements, and it gives me great pleasure to invite our new Foundation Stage children, and their parents, to join us on our journey this year!

Your children are amazing, and I look forward to working constructively with you over the coming year to make sure we give them the very best school experience possible.

Yours sincerely,

Matthew Winson  
Headteacher
